NEW WESTMINSTER, SATURDAY, FEB. 17, 1866.

THE GOVERNMENT PRINTING.

Although conscious that whatever we may say upon the subject of the Government Printing will carry less weight than it might under other circumstances, yet the fact that we are the only public journalists in the Colony, and have, therefore, in a sense a personal interest in the issue, cannot absolve us from the duty we owe to the people, of exposing misappropriation of the public money, and disregard of the only safeguard against corruption, viz., throwing all public work open to wholesome competition. And yet, after all, do we not occupy a much less delicate position in respect of this matter than do the official members of the Legislature, in voting upon their own salaries? When the item for printing in last year's Estimates was up for discussion, in "Committee of Supply," it was suggested by some of the unofficial members that a saving would be effected by giving the printing out by contract. The Colonial Secretary laid before the House some returns as to the number of forms which had been printed during the year, and alluded to the fact that Vancouver Island, a much smaller Colony, was paying more for its printing than was asked from British Columbia. An unofficial member said that he was authorized to state to the House that there were private parties prepared to do the Government Printing for twenty-five per cent. less than it was being done. Of course this had no effect, and the appropriation was accordingly made. When the Printing Department came up in Committee of Supply on Monday last, similar objections were raised by the four independent members, several of whom spoke somewhat strongly and with much ability against the impolicy of keeping up a Government Printing establishment in the present weak condition of the Colony, when the work could undoubtedly be done for less if given out to competition, one member repeating his statement of last year, that parties were prepared to do the printing twenty-five per cent. under what it costs the country now, and the Government was asked whether any steps had been taken to ascertain what the work could be done for by private parties. The member for Lytton came to the rescue of the Government, and said that when the same question was up, a year ago, the Colonial Secretary had laid statistical information before the House showing that the public printing was being done for very much less than in a neighboring Colony, and for less than it could be done by private parties! After some discussion the appropriation was carried by the same vote which passed the Estimates, and precisely the same by which the vote of censure was carried on Wednesday. We need hardly say that the portion of Mr. Cornwall's remarks which we have put in italics is incorrect in every sense. The Colonial Secretary did not lay any information before the House last year, or at any other period, tending to show that the printing could not be done for less by private parties; and we believe we are correct in stating that the Government has carefully eschewed light upon that subject. Nor is it true that the printing cannot be done for less. We know that it can; and, what is more, we stand prepared to do it for twenty-five per cent. less, and were it thrown open to competition it is not improbable that it would be done for fifty per cent. less. The references made to the public printing of the neighboring Colony were a mere throwing of chaff in the face of members and the public. Without any reference to the ridiculous way in which the Government of the neighboring Colony gets its printing done at present, we are in a position to state that a responsible party submitted an estimate to Governor Kennedy, in August last, offering to do all the Government Printing of that Colony for nearly fifty per cent. less than this Colony was called upon to pay last year! Now, we ask, what must the public think of all this? It may be said that we make a stronger case than facts will warrant, because we want to get the Government Printing. The fact is, we really have no personal interest in the matter, beyond that interest which every tax-payer in the Colony has. If the Government Printing were thrown open to competition it is simply absurd to suppose that we would be the only competitors for it, or that we would be sure to get it. And the very circumstance would, in all probability, result in the establishment of another printing office here. It must be evident, therefore, that, so far from urging the abolition of the Government Printing establishment from motives of

self-interest, the very reverse is the case. We advocate the policy of giving out the public printing to competition for the very same reasons, and upon the very same grounds, that we advocate competition in all works involving the expenditure of the people's money, and avoiding corruption and jobbery. The printing being "in our line" we know more about it than we could possibly know respecting the other departments; but if the *professed* economy in this branch of the service is to be taken as a gauge of the others, what conclusions must the public come to respecting the vaunted economy of the public service?

COUGHS, ASTHMA, AND INCURABLE CONSUMPTION are effectually cured by

KEATING'S COUGH LOZENGES.

FOR HALF A CENTURY this well-known remedy for Pulmonary Disorders has successfully stood the test of public approval, and their usefulness has been extended to every clime and country of the civilized world. They may be found alike on the gold fields of Australia, the back-woods of America, in every important place in the East or West Indies, and the Palace of Pekin. During this long period they have withstood the pretensions of numerous inferior rivals, and are now the acknowledged antidote of Coughs, Colds, Asthma, &c.

Prepared and sold in Boxes and Tins of various sizes, by THOMAS KEATING, Chemist, &c., 79, St. Paul's Churchyard, London. Retail by all Druggists and Patent Medicine Vendors in the World.

N. B.—To prevent spurious imitations, please to observe that the words "KEATING'S COUGH LOZENGE" are engraved on the Government Stamp of each Box, without which none are genuine.

THE GRAND PROMOTERS OF HEALTH.

HOLLOWAY'S PILLS.

The grand secret of attaining happiness is to secure good health, without which life is stripped of all its pleasures. The first irregularity of any function should be checked and set right by appropriate doses of these fine purifying Pills, which strengthen the system by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disturbance, and restore its normal and natural power to every organ, without inconvenience, pain, or any other drawback.

Derangement of the Bowels, Liver and Stomach Complaints.

This medicine is so well known in every part of the world, and the cures effected by its use are so wonderful, as to astonish everyone. Its pre-eminence as a remedy for bilious and liver complaints, and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the beneficial effects of Holloway's valuable Pills are so permanent and extensive that the whole system is renovated, the organs of digestion strengthened, and full and easy assimilation promoted, so that both physical and moral energy are increased.

Determination of Blood to the Head.

This is generally occasioned by some irregularity of the stomach and bowels, which, if not quickly attended to, frequently terminates fatally. A few doses of these famous Pills never fail to give tone to the stomach, regularity to the secretions, and purity to the fluids. Vertigo, dimness of sight, and other indications of approaching apoplexy, are entirely dissipated by a course of this admirable medicine.

The Female's Best Friend.

For all debilitating disorders peculiar to the sex and in every contingency perilous to the life of women, youthful or aged, married or single, this mild but speedy remedy is recommended with friendly earnestness. It will correct all functional derangements to which they are subject.

Serofula and all Skin Diseases.

For all skin diseases, however inveterate, these medicines are a sovereign remedy. While the Pills act upon the blood, which they purify, the Ointment passes through the pores of the skin, and cleanses every structure, as water saturates the soil or as salt penetrates meat. The whole physical machinery is thus rendered healthy, regular and vigorous.

Coughs, Colds and Asthma.

No medicine will cure colds of long duration or such as are settled upon the chest so quickly as these famous Pills. Even in cases where the first stage of asthma has appeared, these Pills may be relied on as a certain and never-failing remedy, particularly if the Ointment be simultaneously well rubbed into the chest and throat night and morning.

Indigestion.—Bilious Headache.

These complaints may sometimes be considered trifling, but it should be borne in mind that, by inattention and neglect, they often end most seriously. Give early thought to a deranged stomach, take Holloway's Pills, rub his celebrated Ointment over the pit of the stomach, and you will shortly perceive a change for the better in your digestion, spirits, appetite, strength and energy. The improvement, though it may be gradual, will be thorough and lasting.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague	Female Irregularities	Retention of Urine
Asthma	Fleas of all kinds	Scrofula, or King's Evil
Bilious Complaints	Fits	Sore Throats
Blotches on the skin	Gout	Stone and Gravel
Bowel Complaints	Head-ache	Secondary Symp-
Colic	Indigestion	toms
Constipation of the Bowels	Inflammation	Tic Douloureux
Debility	Jaundice	Tumours
Dropsy	Liver Com-	Ulcers
Dysentery	plaints	Venerical Affections
Erysipelas	Lumbago	Worms of all kinds
	Piles	Weakness, from whatever cause
	Rheumatism	&c., &c.

Sold at the establishment of PROFESSOR HOLLOWAY, 244, Strand, (near Temple Bar) London: also by all respectable Druggists and Dealers in medicines throughout the civilized world, at the following prices:—1s. 1ld., 2s. 9d., 4s. 6d., 11s., 12s., and 25s. each Box.

* There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box.

PROSPECTUS OF THE

BRITISH COLUMBIA

COAL MINING COMPANY!

[LIMITED].

Incorporated under the Joint Stock Companies' Act, 1856, which limits the liability of each Shareholder to the amount of his Shares.

CAPITAL ----- \$100,000,
IN 2000 SHARES OF \$50 EACH, WITH POWER TO INCREASE.

100 A. SHARES have been issued as paid up shares to the promoters of the company, as the consideration paid them for their right to 600 acres of land, &c. The remaining 200 A. shares are reserved for the general benefit of the company. 700 B. shares to be issued to subscribers, subject to payment of \$2 per share at the time of subscription, and of calls of \$1 per share, per month, until \$15 in all shall have been paid, when the subscribers shall be entitled to certificates of fully paid up stock. The remaining 1000 C. shares are reserved for issue at par when the Coal Mine is sufficiently explored and proved.

DIRECTORS:

CAPTAIN JAMES COOPER, Chairman;
Hon. J. A. R. HOMER, M.L.C. W. CLARKSON, Esq.,
JOHN ROBSON, Esq., GEORGE DIERZ, Esq.,
SWEET P. MOODY, Esq., JAMES VAN BRAMER, Esq.,
JOSEPH C. HUGHES, Esq., W. J. ARMSTRONG, Esq.,
JOHN PICKAVANT CRAWFORD, Esq.

AUDITOR:

THOMAS MCKINLEY, Esq.

BANKERS:

THE BANK OF BRITISH COLUMBIA.

SECRETARY:

WILLIAM CLARKSON, Esq.

This company is organized for the purpose of exploring and mining for Coal, and boring for Coal Oil. The character of the sandstone at Burrard Inlet, its identity with the coal-bearing sandstone of Bellingham Bay and Nanaimo, and the numerous indications of Coal to be found at different places on the Inlet and on English Bay, make it nearly certain that Coal measures similar to those of Bellingham Bay and Nanaimo will be found at a reasonable depth.

The company have secured a reserve of 600 acres on Coal Harbor, Burrard Inlet; also a right to mine on 600 acres on English Bay, giving to the company a coal field of 1200 acres in extent, and the British Columbia Government has pledged its support in every reasonable way.

It is the intention of the company to immediately put down a bore for Coal—the strong probability being that in less than 90 days the ground will have been prospected and the company ready to sink a shaft and open a mine.

If the Coal croppings at English Bay or Burrard Inlet should be successful, as is usually the case, by thicker seams below, it must become an invaluable property. The position of English Bay and Burrard Inlet renders the harbors easy of access in all winds and seasons. The shores bold, so that no long wharves or tramways would be needed, while the prices of Coal on the Pacific—averaging from two to three times the prices on the Atlantic—renders the prosecution of Coal mining one of the most promising enterprises of the day.

The whole of the B. shares are now offered for subscription. The monthly calls on these will be adequate to meet the current expenses of prospecting; the subscribers to these shares incur a small risk, but they get a compensation—a \$50 share for the small sum of fifteen dollars.

Parties desirous of obtaining shares may be furnished with every information by applying to the Secretary, at the company's office, in New Westminster.

The company have engaged Mr. John Dick, a practical coal miner of many years' experience both in Scotland and Vancouver Island, to prospect and examine the locality of English Bay and Burrard Inlet. The annexed is his report:—

"To the Board of Directors of the British Columbia Coal Mining Company, Limited.

Gentlemen,—After a careful examination of several square miles of the country lying to the southwest of Burrard Inlet, I take pleasure in being able to state that, although owing to the general regularity and unbroken nature of the beds of strata there visible I have not been able to discover the outcroppings of any coal seam worthy of note, still there is every indication of the existence of such a seam at no great depth—say from 40 to 60 fathoms. Should my surmise prove correct there is no doubt (judging from the very trifling angle of dip and its freedom from faults and other dislocations of strata) that the field will be quite equal in extent to any yet discovered on Vancouver Island.

For the purpose of further proving the quality of the Coal and its depth from the surface, I would recommend that a series of borings be commenced at such places as, after further deliberation, I shall be prepared to point out. I am, Gentlemen,
Your obedient servant,
JOHN DICK.

Port Douglas, May 4, 1865.

BREACH OF PRIVILEGE—THE LIBERTY OF THE PRESS IN DANGER.

The fifth, and, let us hope, for the credit of the country, the last, part of the greatest legislative force ever enacted upon British soil, by persons calling themselves British subjects, came off yesterday in the Legislative Chamber, at the Camp. Inasmuch as a tolerably full report of the proceedings will be found in another column, it is not necessary that we should dwell at any great length upon the extraordinary, un-British, undignified, and unjust position taken by the Official Brigade; nor will it be possible, in the scope of a single article, to deal with the subject in all its bearings, so that many points must necessarily be left for a future occasion. It will be unnecessary to point out the glaring injustice of trying and inflicting punishment upon one of Her Majesty's subjects, without granting a hearing, or allowing an opportunity for defence, or explanation. The people of British Columbia will have no occasion to go to "May's Practice," or any other authority, legal or parliamentary, to learn that such a proceeding is a gross outrage upon the rights of the subject, as it is a scandalous infringement of every principle of justice. We say it needs no reference to authority to teach a fact so self-evident to the very lowest type of human intelligence. This much being conceded, it will at once appear that, without any reference whatever to the truth or falsity of the charge, or to the degree of the alleged offence, a flagrant wrong has been inflicted upon the editor of this journal. The indictment, to use legal phraseology, contained four distinct counts, the first being a misreporting of Mr. Cornwall's remarks, the second a criticism upon the demeanor of Mr. Franks, the third the Chancellor of the Exchequer, the third, the words which characterized the proceedings in Committee of Supply as a farce, and the fourth a facetious parenthetical remark respecting the statement made by Mr. Ball about the unofficial members commencing retrenchment at the wrong end, when they attempted to cut down the allowances of the Gold Commissioners. So far as the first count, the only one charging us with misreporting, is concerned, we have simply to say that the charge is frivolous and unsupported by fact. In this we are fully supported by four independent members, who were nearest to Mr. Cornwall when he made the remarks, the responsibility of which he now desires to shirk, and who, consequently, were most likely to have heard correctly; and, in addition to this evidence, we have strong corroborative evidence in the fact that his votes upon the Estimates all go to show that "he did not consider the present Civil List excessive, and he believed the Colony was well able to support it." We are at a loss to understand how it can be a breach of privilege to report him in strict conformity with his votes. With respect to the criticism upon the conduct of Mr. Franks, we are fully supported by at least one member in characterizing it as undignified and indecorous, and we claim the right to criticize, within certain bounds, the demeanor of public men, in a legislative body, a right which we have no notion of surrendering at the bidding of the Official Brigade, or of their man "Friday." The third count, that of characterizing the proceedings of the House as a farce, is so similar in its nature to the second, that the same remarks will apply. And, we would ask, is it not ridiculous to decide that it is a breach of privilege for a public journalist to describe the proceedings as a farce, when members of the Council have repeatedly declared them to be such, in their place in the House, and without so much as being called to order? The fourth and last count is so utterly frivolous and ludicrous that it will be quite unnecessary to take up valuable space in discussing it. We supposed that any school-boy of ordinary intelligence would have understood the passage simply to mean that the idea struck the reporter, "where would Mr. Ball have retrenchment begin, seeing he had strenuously opposed it all through." Yet it appears Mr. Cornwall's intellect proved inadequate to the task of comprehending so simple a matter. We maintain, therefore, that the conduct of the Official Brigade, in trying and condemning us without a hearing—persistently refusing to allow us an opportunity either for

defence, explanation or apology, was a gross outrage, and that the charges brought against us were untrue, frivolous and ridiculous. In resisting the motion brought forward on Friday, certain members took the ground that the simple fact of the publication was evidence so conclusive that it was preposterous to talk about a defence at all, and, therefore, that they were right in condemning us without a hearing. Now, we need not stop to point out how utterly subversive of the cardinal principles of British law such a doctrine would be, in its application to general cases; and we have yet to learn that there is one sort of justice for an editor, and another sort for other classes of Her Majesty's subjects. But, to confine this un-English principle to our own case, it is not difficult to show that the fact of our having reported the proceedings of the House, and the fact that these proceedings, as published in our paper, misrepresented what members did say, is by no means conclusive evidence of our having either unintentionally or willfully misrepresented the proceedings; that is assuming, for the sake of argument, that they were misreported in the paper. We not unfrequently place the report in the hands of the compositors in the evening, and never see it again until it appears in the paper. It would be a very easy matter either for our partner, or for any one of the compositors to alter portions of the report, or introduce fresh matter into it, without our knowledge; and for anything that these wiser men knew we might, if afforded an opportunity, have proved to them that such had been the case in this instance. We merely mention this in order to show how utterly fallacious is the position taken by these members. We may be asked, "But why all this ado about a vote of censure passed in such a way, by such a party? What harm can it do you, or what do you care about?" So far as the vote of censure itself is concerned we don't care a fig for it. Nay, under all the circumstances, we esteem it as the highest compliment that could be paid us. But, it must not be forgotten that two principles, dear to every Briton are involved, viz., the rights of the people and the freedom of the Press, principles which we will not surrender if the Official Brigade should pass a vote of censure every day, or inflict the most extreme punishment the law will allow.

THE APPROPRIATION FOR NEW WESTMINSTER.

When the item of \$4,000 (a re-vote) for repairs and improvements to the streets of New Westminster came up, in Committee of Supply, on Tuesday, the hon. Mr. Cornwall spoke against it, and, in doing so indulged in a tirade of abuse of the capital. The hon. Attorney General replied very effectively. He said that much of this carping from certain quarters was the result of excessive modesty on the part of the people of this city, who, instead of asking for such small amounts were entitled to much larger sums; and that if the Government had taken hold of the capital and treated it as it ought to have been treated we should not now have to listen to such remarks. Hon. Mr. Holbrook followed in an able speech. He stated that the people had expended the sum of one million one hundred thousand dollars in permanent improvements, had taxed themselves to the extent of \$30,117, effected a municipal loan of \$15,000, all for the purpose of building up a capital, for the site of which they had paid the Government \$127,332. He alluded to the fact that after all the remarks which had appeared in certain papers about the people of New Westminster not paying a fair share of the revenue, &c., he found, upon a careful investigation, that one third of the revenue collected at the Custom House during the past year was paid by the people of this city. The hon. Mr. Homer spoke at some length upon the same side. He said New Westminster did not come in the character of a beggar. She merely asked for a very small instalment of what the Government owes. Instead of the paltry sum set down in the Estimates there ought to be a very different amount. He alluded to the terms upon which the town site was sold. He was prepared to prove that the Government promised that the streets would be made out of the proceeds of the sale; and yet, in the face of that assurance, the whole proceeds, something over \$120,000, had been thrown into the general revenue, and the people left to tax themselves to make the streets. He maintained that the people of New Westminster had done more towards permanent improvements than any other community of the same size in the Colony. They were, in fact, the only community in the country who had taxed themselves for local improvements; and it was to their exertions that the country was mainly indebted for the change of Government, and the possession of the more liberal constitution which we now enjoy. Mr. Cornwall, of course, opposed the item, speaking of the Capital in his usual contemptuous style. The item was carried.

FROM YULE.—Mr. Barnard and Mr. J. Black arrived in a canoe from Yale yesterday. They brought an express, but no news of importance.

CONVEYANCE OF MAILS

THROUGH

BRITISH COLUMBIA.

SEALED TENDERS will be received at the General Post Office, New Westminster, up to 12 o'clock (noon) of the 17th February, 1866, for the conveyance of Letters, and the usual Government mail matter, through British Columbia, for one year from 1st March, next, on the following conditions:

1. From 1st March, to 30th April, and from 1st to 30th November, 1866, a Mail to be dispatched twice a month, at intervals of not more than 16 or less than 14 days, from New Westminster to Williams Creek and intermediate stations, with a branch from Cache Creek to Savanna's Ferry, arriving at Williams Creek on or before the tenth day; a Mail to be dispatched from Williams Creek at like intervals and over the same route twice a month.

2. From 1st May, 1866, to 1st November, 1866, Mails to be dispatched from New Westminster to Williams Creek and intermediate stations, with a branch from Cache Creek to Savanna's Ferry, every Saturday, arriving at Williams Creek on or before the tenth day; a Mail to be dispatched from Williams Creek once a week over the same route.

3. During the winter months, from 1st December, 1866, to 1st March, 1867, a Mail to be dispatched from New Westminster to Williams Creek, and vice versa once a month, with a branch from Savanna's Ferry up and down, and twice a month from New Westminster to Lytton and Lillooet and back.

4. The Contractor to furnish at least two approved Sureties in the sum of £1,000, for the bona fide character of his Tender, and for the due performance of his contract, and to be subject to the usual conditions in Government postal contracts.

All further information necessary can be obtained at the General Post Office, New Westminster.

The lowest or any Tender not necessarily accepted.

NOTICE TO MARINERS.

A Light Ship has been moored in the Straits of Georgia, off the South Head of Fraser River. A bright fixed light will be exhibited from sunset to sunrise, which will be visible in smooth weather at a distance of ten or eleven miles. The vessel is moored about two cables W. S. W. from the South Head Buoy, leaving a clear channel between them.

A large steel Bell will be continually tolled on board, during thick or foggy weather.

Caution is hereby given, that no vessel will be allowed to anchor within three quarters of a cable length from the Light Ship, and attention is drawn to the Harbour Regulation Ordinance, of 1865, relating to the

JAMES COOPER, Harbour Master.

EMBRACE THE OPPORTUNITY

In securing a knowledge of

CLEGG'S SYSTEM

—OF—

Book-Keeping and Writing.

CITIZENS of New Westminster and vicinity, are notified of my present intention to make New Westminster my home, so long as I receive patronage sufficient for a livelihood.

Book-keeping, properly done, should show a true record of one's business, as a mirror shows a true picture of man's physiognomy. Such I propose to do by a simple and plain mode of Double-entry Book-keeping, which is the only true and correct way to keep a set of books. It will answer the Farmer, the Merchant, and the Tradesman as well as the Mercantile.

Persons wishing books opened, kept or posted—either by Single or Double-entry, accounts made out, documents copied, together with such other writing as may be desired, would do well to try the undersigned; at his office, the second door north of the Columbia Hotel.

Instructions given either in Single or Double-entry Book-keeping.

FOR SALE!

Yale Bakery.

THE Proprietor wishing to leave for the Big Bend Mines now offers the above business for sale.

The premises are entirely new and are situated immediately opposite the steamer landing at Yale, the head of navigation, on the main line of travel to the interior.

As there is a large local trade connected with the business, and as the whole rush for the Big Bend Mines must pass the door, this presents an opportunity to parties in the trade that is rarely to be met with.

For particulars apply to

DIETZ & NELSON,

Or, A. McLARDY,

Proprietor, Yale.

ROYAL COLUMBIAN HOSPITAL.

CURES AND COMFORT FOR THE
BED-RIDDEN

HOLLOWAY'S OINTMENT.

This wonderful Ointment acts like magic in relieving and curing old sores, wounds, bad legs, ulcers, and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structures. It heals by cleansing all animal fluids with which it comes in contact, and therefore promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the rackings pains of Rheumatism and Gout this Ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lessen inflammation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible specifics.

Diphtheria, Bronchitis, Sore Throats,
Coughs and Colds.

This class of diseases may be cured by well rubbing the Ointment, three times a day, upon the throat, chest, and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds, and Bronchitis, this treatment may be followed with efficiency and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scrofula, Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway's Ointment, assisted by his celebrated Pills, which act so powerfully on the constitution, and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained.

Dropsical Swellings.

Beware of this dangerous and stealthy complaint, which frequently creeps upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked for in the liver and stomach; therefore, set to work earnestly, by taking Holloway's famous Pills according to the printed instructions, and rubbing the Ointment very effectively over the pit of the stomach and right side, where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, false delicacy concealing them from the most intimate friends. Persons suffer for years from Piles and similar complaints when they might use Holloway's Ointment with instant relief, and effect their own cure without the annoyance of explaining their ailment to anyone. The Pills greatly assist the Ointment, as they purify the blood, regulate its circulation, renew diseased structures, and invigorate the entire system.

Disorders of the Kidneys, Stone and Gravel.

Are immediately relieved and ultimately cured if this Ointment be well rubbed, twice a day, into the small of the back, over the region of the kidneys, to which it will gradually penetrate, and in almost every case give immediate relief; but perseverance will be necessary to effect a thorough cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs.	Chapped Hands.	Scalds.
Bad Breasts.	Contracted and	Sore Nipples.
Burns.	Stiff Joints.	Sore Throats.
Bites of Mosquitoes.	Fistulas.	Skin Diseases.
and Sand-Flies.	Gout.	Scurvy.
Coco-bay.	Glandular Swellings.	Sore-heads.
Chigo-foot.	Lings.	Tumors.
Corns (soft).	Lumbago.	Ulcers.
Cancers.	Piles.	Wounds.
Chilblains.	Rheumatism.	Yaws.

Sold at the establishment of PROFESSOR HOLLOWAY 244, Strand, (near Temple Bar) London; and by all respectable Druggists and Dealers in Medicines throughout the civilised world, at the following prices:—1s. 1jd., 2s. 4d., 4s. 6d., 11s. 2s., and 33s. each Pot.
* There is a considerable saving by taking the larger sizes.
N. B.—Directions for the guidance of patients in every disorder are affixed to each Pot.

HICK'S HOTEL!
